

OFFICER & AIRCREW SELECTION CENTRE (OASC)

MIOT

OVERVIEW

WELCOME

The Royal Air Force (RAF) Officer and Aircrew Selection Centre (OASC), located at RAF Cranwell, is the formal assessment hub for prospective RAF Officers, Non-Commissioned Controllers and Non-Commissioned Aircrew (NCA).

An OASC Board contains a formal interview, a discussion exercise, a planning exercise, a leaderless exercise and command tasks, typically lasting one day.

Key aspects of OASC Assessment

Location:

Based at Adastral Hall, RAF College Cranwell in Lincolnshire.

Assessment Areas:

Evaluates leadership potential, decision-making, communication skills, teamwork, and ability to work under pressure.

Key Components:

Candidates undergo a planning exercise, physical leadership/command tasks, group discussions, and a final interview regarding motivation and current affairs.

Preparation:

Candidates are advised to review the notes for guidance and prepare for intense mental and physical challenges.

Application Process:

As detailed in the Officers Application Process, this is the definitive stage for evaluating candidates seeking roles such as pilots, engineers, and aircrew.

Upon successful completion of OASC you may be offered a place on a future MIOT course, the following is an overview of what that course entails.

The OASC Interview will also discuss:

- ▷ Further training for the role
- ▷ Opportunities for specialisation as your career progresses
- ▷ What the role entails and how it relates to military operations
- ▷ NATO
- ▷ The RAF roles
- ▷ Air Power
- ▷ Wider current affairs

Please use this information as a guide for the level of detail that will be expected during the interview in all areas to succeed.

CONTENTS

Welcome 2

Module 1:
Military Skills
Module (MSM) 4

Module 2:
Command, Leadership and
Management 1
(CLM 1) 6

Module 3:
Command, Leadership and
Management 2
(CLM 2) 9

Module 4:
Consolidation
Module 10

ACRONYMS

2IC	Second In Command
EAW	Expeditionary Air Wing
NEO	Non-Combatant Evacuation
MACA	Military Aid to Civilian Authorities

MODULE 1

Military Skills Module (MSM)

Exercise PHOENIX EDGE (Ex PE)

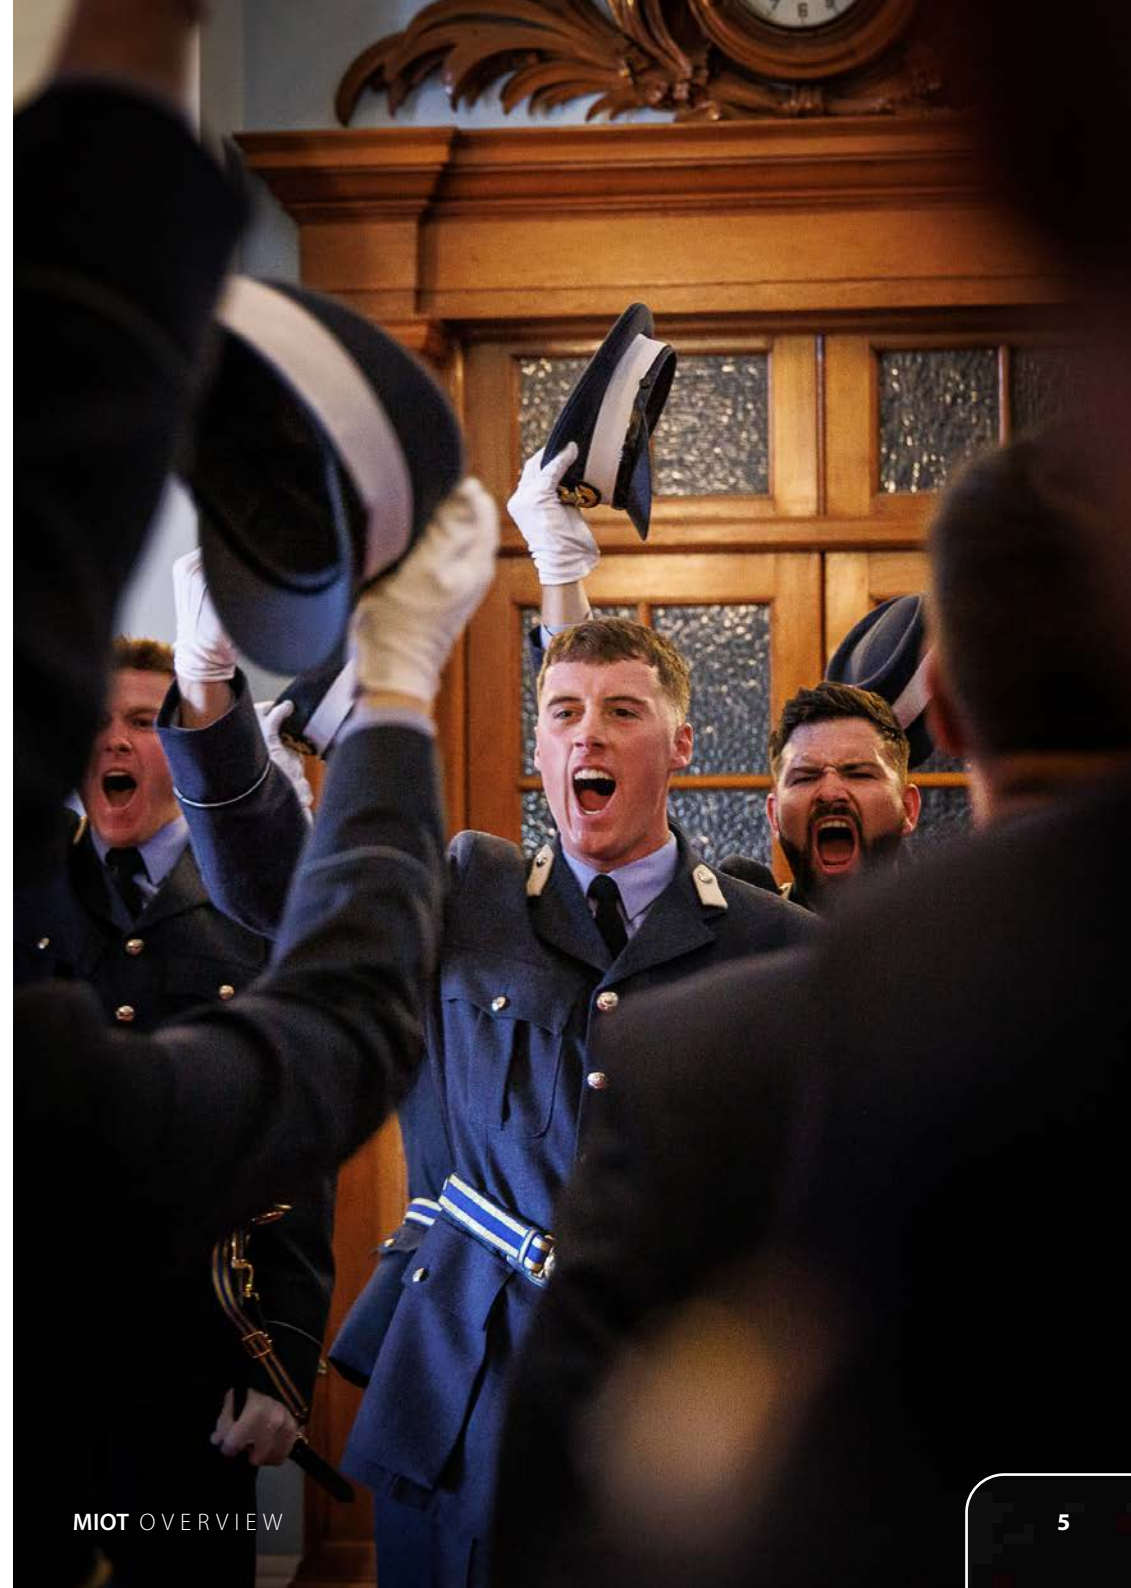

- ▷ Conducted from Sunday of Week 5 to Wednesday of Week 6
- ▷ A 3-day / 2-night military skills exercise at Barkston Heath
- ▷ Also known as Confirmation of Practical Training (CPT)

This exercise allows Officer Cadets (Off Cdts) to practise the core military skills learned during MSM, including:

- ▷ Weapons handling
- ▷ First aid
- ▷ CBRN
- ▷ Low-level patrolling
- ▷ Actions on drills

Off Cdts may be required to respond to multiple scenarios, including a CASEVAC. Some may be given the opportunity to step forward and lead a section (emergent leader or DS-appointed), although no leadership or Command Leadership and Management (CLM) attributes are formally assessed during this exercise.

In preparation for Ex PE, Off Cdts will also complete their Live Firing (LF) on the range.

MODULE 2 Command, Leadership & Management 1 (CLM 1)

Practical Leadership Exercise (PLE)

- ▷ A 2-day exercise in Week 2 of CLM 1
 - ▷ Focused on team building and introducing leadership
- Off Cds lead a section for the first time on MIOTC. They are given a mission brief, conduct a back brief, and produce a simple plan.
- ▷ Each lead lasts 30 minutes, followed by a 25-minute peer and DS review
 - ▷ First opportunity to receive feedback against CLM attributes

Exercise DYNAMIC EDGE (Ex DE)

- ▷ Conducted over 3 days in Week 3 of CLM 1
 - ▷ Section-level patrolling on the North Airfield Training Area
- This exercise builds on PLE and MSM skills. Off Cds are expected to:
- ▷ Delegate tasks and utilise a 2IC
 - ▷ Manage time and resources effectively
- Leadership scenarios include:
- ▷ CASEVAC
 - ▷ Air Ops equipment setup
 - ▷ Negotiation with local role players (e.g. farmers, refugees, divided tribes)
 - ▷ Road traffic incidents

Leads last 1.5 hours, followed by a 30-minute peer and DS review.

The exercise introduces dynamic change, requiring replanning and adaptability, and reinforces Operational Mindset.

Ex DE also acts as Pre-Deployment Training for Ex EAGLE'S EDGE, using the fictional country GORGAS within an overarching EAW scenario.

Exercise EAGLE'S EDGE (Ex EE)

- ▷ Conducted at Beakingham Training Area
 - ▷ Deploys Sunday of Week 4 to Friday of Week 5
- This is a significant step up in complexity and demand.
- ▷ Approx. 4 hours planning and 4 hours execution, including 30-minute DS and peer review
 - ▷ All 9 CLM attributes are routinely assessed

Leads are longer and more complex, with tactical and operational impact. Some Off Cds may undertake HQ leadership roles.

Ex EE represents the Squadron deploying on operations, running concurrently with the EAW on Ex COMMANDERS EDGE (Ex CE).

This is the most mentally and physically demanding exercise, supported by significant resources to reinforce an operational mindset, including:

- ▷ Drones (as a force protection capability)
- ▷ CH47 support
- ▷ Amputee role players

MODULE 3 Command, Leadership & Management 2 (CLM 2)

Exercise COMMANDER'S EDGE (Ex CE)

- ▷ Conducted at Beakingham Training Area during Week 5 of CLM 2
- ▷ Runs Sunday to Friday, concurrent with Ex EE

Off Cds operate within a deployed Ops Room, executing A1–A5 functions (with scope to expand to A1–A9).

The exercise includes:

- ▷ Planning for NEO and MACA tasks
- ▷ Welfare Management, Line Management, Care in Leadership, and Effective Communication within an operational environment

This exercise is designed to prepare Off Cds for Consolidation.

MODULE 4 Consolidation Module

This is the formal assessment phase, with Off Cdts assessed against:

- ▷ Behaviour Anchored Rating System (BARS) CLM
- ▷ BARS Respect Integrity Service and Excellence (RISE)

Key Activities:

Week 1 – Office Simulator Exercise

- ▷ 4-day exercise
- ▷ Welfare, discipline, and SJAR (report)-related taskings and interviews

Exercise ASTRA EDGE

- ▷ EAW planning and deployment
- ▷ Expeditionary taskings
- ▷ Commanding or supporting A-function desks

Exercise HIGHLAND EDGE

- ▷ Adventure Training in the Scottish Highlands
- ▷ Planning and leading a 2-night expedition in a challenging environment

VIVA

- ▷ 5–10 minute verbal presentation on an air power question
- ▷ Cadets select from a published list
- ▷ Must demonstrate research depth and ability to answer follow-up questions
